Architects

Quality you can see.

You can always see quality in design—you notice a bit more thought in the concept—the proportion, balance and color appear just right—the texture of superior materials seems more appropriate. And our look is so unique it is a registered trademark.

StoneWall SELECT allows designers to realize their visions. That's why the finest, award winning architects and contractors prefer StoneWall SELECT for their residential projects.

**Best Landscaping Award for Vancouver, British Columbia's
Street of Dreams**

**Naturally scaled, real-rock
beauty that blends in with any
style of architecture or
landscape, and engineered to
perfection.**

Whether your design requires 90° corners, inside or outside radii, tall walls or terraces, lighting installations, steps or a simple little tree surround — StoneWall SELECT does it all with perfect proportion, elegance and grace.

Low
voltage
lighting
can be
easily

incorporated into the wall design to
provide stunning visual effects.
